Organic Fertilisers

Product Catalogue

Introduction

Organic Fertilisers

Rejuvenate & Boost Plant Vitality

Multigreen® Organic Fertiliser is a 100% plant-based organic fertiliser engineered for commercial plantations. Its advanced organic formulation delivers balanced macro and micronutrients, enhancing soil fertility and crop yield without synthetic additives.

Optimised for oil palm, rubber, tea and fruit orchards, it improves nutrient uptake, water retention and microbial activity while reducing dependency on chemical inputs. Our organic fertilisers ensures long-term soil health and compliance with regenerative agriculture practices, maximising productivity responsibly.

Organic Fertilisers Benefits

Improved Soil Health

Organic fertilisers enrich the soil with essential microbes and organic matter, improving soil structure and increasing its water retention and drainage capabilities.

Eco-Friendly Ingredients

Made from natural ingredients, organic fertilisers reduce the risk of chemical runoff, making them safer for the surrounding ecosystem, water bodies and wildlife.

Balanced Nutrition

Organic fertilisers provide a balanced mix of essential nutrients, ensuring that plants receive the right amount of nitrogen, phosphorus and potassium for optimal growth and development.

Improved Crop Quality

Organic fertilisers contribute to healthier, more nutritious crops, often improving flavor and appearance, which benefits both the grower and the consumer.

Organic Fertiliser

4.1-1.6-1.4+60% OM

Premium Organic: Granular Excellence

Introducing Multigreen® Premium Organic Fertiliser, this granular organic fertiliser is crafted entirely from plant-based materials, offering a natural approach to soil enrichment. This composition is designed to support healthy plant growth, root development and flowering, delivering essential elements in a readily available form.

A significant component of this fertiliser is its 60% organic matter content. This high level of organic material contributes to improved soil structure, enhancing water retention and fostering a thriving environment for beneficial soil microorganisms.

Composition	
Nitrogen (N)	4.1%
Phosphorus (P ₂ O ₅)	1.6%
Potassium (K ₂ O)	1.4%
Organic Matter (OM)	60%

Organic Fertiliser

2-1-1+50%OM+Amino Acid

Restore & Stimulate Plant Growth

Our 100% plant-based organic fertiliser in fine powder form features a balanced formula of 2-1-1+50%OM+Amino Acid. This fertiliser provides essential nutrients nitrogen, phosphorus and potassium while the amino acids enhance nutrient absorption, soil structure and root growth. Ideal for organic farming, it supports sustainable agriculture with minimal environmental impact.

Composition	
Nitrogen (N)	2%
Phosphorus (P ₂ O ₅)	1%
Potassium (K ₂ O)	1%
Organic Matter (OM)	50%
